INDEX TO PRINCIPAL CONTENTS OF VOLUME 163

JANUARY to JUNE 1980

A

Advantages of digital read-out balances 139
Application of microcomputers to textile testing 224
Applying hot dyeing reactives to piece-goods 482
Automatic control of dyeing machines 148
Automatic process control and systems thinking 155
Auxiliaries in polyester exhaust dyeing, importance and influence of 225

C

Chemical facts of life 58
Colour measurement, dyehouse control and related applications of micro-processors 275
Colouring matters used in Victorian postage stamps 191
Continuous bleaching of woven cotton and cotton blend fabrics 20
Continuous dyeing of small lots from the viewpoint of machine construction 92
Continuous piece dyeing of cotton and cotton blends 22
Controls and energy conservation ... 137

D

Developments in stenter control ... 140
Dyeing of silk, wool and nylon with acid dyes by a new process 269
Dyer's Library
Colour Vision Requirements: Guidelines for Specific Industries and Professions, By Dr Janet Voke ... 321

E

Easily dyed wool 189
Economic colour matching 151

G

German dyeing and finishing industry 419 — 437
Growth of flame-retardant contract fabrics in the UK 26

I

IBK waste water purification and recovery system 21
Indigo 187
Integrated process control and information system 145

L

Layout of plant and buildings and the importance of good materials handling 232

M

Microprocessor-based dye weigh system 308
Microprocessors in dyeing 223
Microprocessors in the dyeing industry 59

O

Optimising the reactive dyeing of cellulosic fibres 341

P

Patents, New

Acrylic polymer size recovery and re-use (1,561,798) 351
Bale dyeing apparatus (1,556,735) 203
Carpet yarn dyeing and tufting (1,551,947) 104
Continuous "ice-colour" dyeing techniques (1,562,216) 348
Continuous dyeing/setting of acrylic carpet yarns (1,559,425) 201
Continuous mercerisation method with vacuum (1,558,610) 202
Continuous wet processing (1,562,998) 353
Continuous wet treatment in rope form (1,562,606) 315
Control in continuous decatising (1,556,105) 28
Drum washing machine (1,559,668) 229
Dyestuffs effluent fluoridation (1,560,737) 203
Dye tubes (1,559,229) 201
Durable creases in wool fabrics (1,565,199) 485
Epoxides in printing and dyeing (1,554,520) 31
Fibre finish for flock (1,564,002) 491
Film-forming transfer technique in textile printing (1,561,330) ... 277
Ionising rays in textile finishing (1,562,020) 316
"Isothermal" dyeing apparatus (1,561,988) 350
Jet dyeing machine plaiting system (1,561,850) 312
Magnetic pressure squeeze (1,552,456) 106
Non-aqueous dyeing and washing system (1,551,367) 30
Nozzle box (1,558,548) 199
Polymer applications (1,565,353) ... 393
Printing/finishing cellulosic textiles (1,559,627) 279
Resin exhaustion process for wool (1,560,937) 313
Resin finishing catalysts (1,557,277) 199
Resist effects by transfer printing (1,564,370) 490
Sample yarn apparatus (1,558,108) 108

Silicone shrink-resist process (1,565,241) 441
Spray jet printing of pile fabric (1,560,641) 229
Spray nozzle for dye jets (1,566,395) 443
Tension control in continuous washing (1,556,474) 62
Tone-on-tone dyeings on polyester/cotton (1,562,047) 441
Transfer printing inks for cellulosics (1,556,119) 30
Tubular fabric mercerising machine (1,556,514) 65
Vapour phase printing of carpets (1,558,890) 105
Velvet cutting by laser (1,566,173) 484
Vertical washing machine (1,559,669) 200
Wet transfer printing on cellulosics (1,566,278) 394
Yarn-dyed car safety belts (1,536,917) 63
Piece dyeing cellulosic knitwear ... 481
Piece dyeing with reactive dyes ... 301
Preparation, dyeing and finishing of hand knitting yarns 133

R

Radio frequency drying in the textile industry 470
Reactive dyes for cellulose and wool 302
Reactive dyes in textile printing ... 274
Review of batch Superwash processing of wool 273
Relevance of textile education 193

S

Stainless steel for static control of wool carpets 54

T

Trends in dyeing polyester/cellulosic blends — discontinuous methods 303
Trends in dyeing polyester/cellulosic blends — continuous methods ... 342

W

Water-soluble azo dyes 98

INDEX TO PRINCIPAL CONTENTS OF VOLUME 164

JULY to DECEMBER 1980

A

An architects approach to thermal comfort 366
Assessment of floorcoverings 173
Automation of continuous transfer calenders 23

B

Biodeterioration in wool textile processing 59

C

Colour in everyday life 285
Colour instrumentation ... ... 161—169
Carpet group prepares for wide use of instrumental colour prediction ... 62
Comparative estimation of active dye content in reactive dyes 158
Continuous heat setting system for carpet yarns 178

D

Dielectric and microwave heating techniques in the textile industry ... 361
Dyeing and finishing machinery review 92—113
Dyeing machines for carpet yarns ... 178
Dyeing on small continuous dyeing machines 88

F

Foam finishing — a novel approach in modern textile processing 369
Footwear trimming 176

G

Greenville machinery preview ... 222—249
Guide to new chemicals and auxiliaries 373
Guide to new dyes 378

H

Health and safety in dyeing 284
Health and safety so far as is reasonably practicable 347

K

Krantz introduce two fabric dyeing machines 367

L

Leeds University centenary lecture ... 63

M

Measurement of the thermal aspects of carpets (and drapes) as a building material 365
Mechanical and chemical processing involved in the production of coloured wool/polyamide fibre blends used in carpet manufacture 55
Mercerising cotton knits 170

P

Patents, New

Anti-felting agents (1,566,883) ... 183
Carrier-free dyeable polyester (1,572,686) 242
Closed cycle dyeing system (1,566,961) 66
Colour Coatings for transfer printing papers (1,569,916) 182
Continuous open-width carpet dyeing (1,573,094) 241
Continuous wool dyeing process (1,568,770) 185
Contrasting colour effects on garments (1,570,387) 123
Creping machine (1,565,475) 122
Decolorising dye liquors (1,570,790) 243
Dyeing and bonding fibres for carpets (1,568,107) 26
Low liquor ratio dyeing in rope form (1,571,295) 310
Low-temperature felting process (1,574,052) 312
Lubrication of textile roller seals (1,566,361) 26
Pad dyeing or printing of fibre mixtures (1,573,413) 313
Pleating and printing (1,571,358) ... 185
Quick-dyeing process for azo developing colours (1,568,759) ... 124
Rapid dyeing with ethylene glycol (1,574,630) 309
Reactive coupling components (1,568,172) 68
Rotary drum tanning and dyeing apparatus (1,568,737) 180
Solid dye preparation (1,566,420) ... 69
Textile processing granules (1,572,353) 313
Wet transfer compositions (1,568,812) 181
Package density, hardness and colour uptake in cones of cotton yarn ... 231
Paper and cotton — the cellulose cousins 359
Pegg Auto-Rotex dyeing machine ... 50
Preventing static problems in printing 15
Properties on non-ionic surfactants and their application in textile processing 28

R

Review of polyester coloration ... 359

S

Single-stage bleaching range provides maximum production 350
Steam raising and dyehouse services 293

T

Textile lubricants 284
Thermosol development at Lonrho Textiles 280
Transfer printing 17

V

Vacuum transfer printing on warps ... 21
